Practical Shooting Simulator simulates your real life practical shooting stages. It provides you with a stage editor, planning editor, character editor, firearm editor, and allows you to play practical shooting videos. Live host is bound to the character editor. The web version allows you to create stages, and you can share them with friends. Scoring is extremely accurate, and you can receive mail notifications when scoring is available. Practice under the guidance of a host at any moment of any day. Enjoy live coaching and sharing by the host. In the simulator, the host will coach you, and even give you tips during the stage. You

can take part in live practical shooting events for free, the simulator also supports online shooting. So what are you waiting for? Have fun, share your skills, and share the stages with others. Fluent Design of the Editor: Easy to use, and fast to learn. Three unique editors: Stage, Planning, and Character. A rich arsenal of special tools: Just think of everything a real stage requires: obstacles, partitions, targets, and much more. Advanced Action Sequence System: You can solve any stage with as little as 3 actions. All actions are used in the simulator in a correct way. If you have a real or the simulator, every action also has its own standard results. Skills can be

ties to the actions. You can change the skills definition at any moment, and its effect will be felt for the rest of the duration of your action. Simple and intuitive editor. Advanced Statistics: High-quality statistics. Detailed statistics for each stage allows you to identify weak points of the stage. After you are done with the stage, check out your stats to help you improve. Use in real life, because you can check your results. Email Notification: Get a notification via email when the results of your stage is available. This allows you to test your abilities, and later compare the results with those of other participants. Fast iterations: Try different equipment, and try out a

completely new stage in seconds. This is also a convenient mode of changing the stage parameters. Free shooting online: Practice live with your web cam. A bright 3D web camera is included. Upload your best stage to share it with others. Live hosts: Get live support from the host. Coaching in the simulator includes checking your physical state, or
