predecessor but it does not fall in line with the current trend of lighter smartphones. The website has started selling the covers with a price of \$16.99 for 10 covers, while the first batch covers cost more or less \$18.99. TCL is launching its new phone at its own Mobile World Congress and will be available for \$7.99 per month for 24 months with a 2GB data plan. However, the device will also be available to purchase for \$159.99 that will include the data plan and a two-year contract with a valid Cricket Wireless SIM card. The Epic 4G features an unprecedented 5-inch display with a resolution of 480 pixels by 854 pixels. It is powered by a 1.2GHz dual-core ARM Cortex-A9 processor and supports 720p video recording. The new smartphone comes with a 5-megapixel rear facing camera with LED flash and a VGA front facing camera. The Epic 4G is also equipped with 1GB RAM, a microSD card slot and a microUSB connector. Cricket Communications is selling the device for \$159.99 with a two-year service agreement. The company plans to sell the Epic 4G for an additional \$7.99 per month for two years if the smartphone is purchased with a contract.

1. Field of the Invention The invention relates generally to chair lumbar support systems, and more particularly to a chair lumbar support system having a combined lumbar support and foldable leg support.

2. Discussion of the Related Art Mechanical devices for enhancing the comfort of a seated user have been known and used in the art. Modern chair designs include mechanisms that allow for adjustments to the lumbar support of the seat back to provide greater comfort. To this end, the user can adjust the lumbar support so as to change the profile of the support. Further, the use of reclining chairs has greatly increased with the market
